No. GRE/231/134

Athens, March 11, 2022

**TO THE HELLAS INTERNATIONAL  
CHAMBER OF COMMERCE**

The Embassy of the Republic of Moldova presents its compliments to the Hellas International Chamber of Commerce and has the honor to announce that due to the Russian military invasion of Ukraine and the unprecedented situation created in the region in all aspects of life, the Republic of Moldova has remained basically without a large market where mainly fruit products were exported to Ukraine and Russia. In this context, the Republic of Moldova has in its stock of apples available for export (March-June 2022) about 90 thousand tons of apples of varieties: Idared and Champion, Golden, Simerenco, Florina, Braeburn, Gala, Granny Smith, and Red Chief.

In this regard, Moldovan exporters would be interested in establishing business ties with the Hellenic Republic, therefore, the Embassy kindly request to disseminate the mentioned information to the interested stakeholders. Find attached hereby as well a brochure with information about fruit products from the Republic of Moldova.

The Embassy will much appreciate any possible answer to the e-mail address [anastasia.nani@mfa.gov.md](mailto:anastasia.nani@mfa.gov.md) or telephone number no (+30) 210 699 0665 or (+30) 699 691 6066, contact person Anastasia Nani, economic counselor.

Please note that the representatives of the Embassy are also available for a meeting to discuss all aspects of the described matter.

The Embassy of the Republic of Moldova avails itself of this opportunity to renew to the Hellas International Chamber of Commerce the assurances of its highest consideration.
