ABOUT GROUP

Gyraab group is a 34+ year old group having diversified verticals. The objective of our management is to deliver the best out of the best to our associate customers and let them feel happy and satisfied of spending every single penny. Our group mainly works in the Textile, Education, Lighting technology, Architectural Solutions, Renewable Energy, Power storage Solutions, EPC contracting and OEM manufacturing services.

ABOUT COMPANY

In 2009, we found a gap between the imagination of Architects and converting them to reality, we founded DAISUN brand Lighting solutions which is now LIGSUN Lighting. Ligsun Lighting Pvt Ltd is a Lighting Science and technology company under the umbrella of Gyraab group. At Ligsun, we focus on delivering outdoor specialized lighting solutions.

Right from the 3 D Modelling, lighting simulation, providing Lighting Demo, manufacturing and supplying the exact required products, getting it installed and handle the service, we offer complete end to end solutions to our clients. Our commitment is to provide cost effective and differentiated products. We also offer reliable OEM/ODM services to our clients.

At LIGSUN we deliver Indian Ethnic Lights for sustainable, durable, flexible and long term lighting solutions and for specialized application for landscaping, Building Façade and Architectural Lightings.

We have continuously developed this portfolio over more than 13 years and every single day we succeed in applying these capabilities in a project-oriented manner, thereby finding even better solutions for our Clients. Our team having wide experience handles the products and projects in a delicate manner to give best and stable solutions. Our team is well experienced to work on various cutting edge technology in the field of Opto-electronics, WiFi Technology, Lora Network, DMX controls and various others.

Our growth success lies in continuous product innovation and reliable customer cooperation. Under the ISO9001:2000 Quality Management System, most of our products have CE, ROHS, UL, Intertek ETL, VDE, TUV certifications.

Our quality assurance lies in strict monitoring and following the international standards and performing stringent checkpoints at every process points, right from raw material sourcing till final mass production
